# Nano 4.0

**Simple to use,  
peace in every moment**

Designed for everyday use, this baby monitor combines reliability, practicality, and safety in a modern design.

It features a 4" LCD display with HD 720p resolution and advanced night vision for clear viewing at any time.

With a 300 m range, 3× digital zoom, and support for up to 4 cameras, it covers the entire home and garden.

Key functions include VOX activation, temperature monitoring, two-way communication, 8 lullabies, and an alarm – all in one compact, easy-to-use device.

# Rem 6.5

**Stay close,  
even from another room**

Designed to give parents greater peace of mind, REM 6.5 combines a smart baby camera with a dedicated 6.5" monitor, giving you a convenient way to keep an eye on your baby without relying on your smartphone.

The 4 MP camera delivers a clear image with 2560 × 1440 px resolution and can be remotely panned and tilted to follow what is happening around the room. Infrared night vision provides visibility up to 5 metres, while temperature, VOX, cry and motion detection help you stay informed day and night.

The monitor connects to the camera via RF with a range of up to 300 m, while dual connectivity also allows the system to work with the FeelBaby app over 2.4 GHz Wi-Fi. Two-way communication and lullabies provide additional comfort and convenience.

**6.5" IPS LCD display**  
**Resolution: 2560 × 1440 px**  
**340° rotation**  
**70° tilt**

**683910**  
Rem 6.5

# Rem Eye

**Smart monitoring,  
wherever you are**

REM EYE is the camera-only version of the system, designed for parents who prefer to monitor their baby directly from a smartphone. Connect it to the FeelBaby app via 2.4 GHz Wi-Fi and keep an eye on your little one wherever you are.

The 4 MP camera delivers a detailed image with 2560 × 1440 px resolution, while infrared night vision provides visibility up to 5 metres even in the dark. Remote pan and tilt allow you to adjust the viewing angle and follow what is happening around the room.

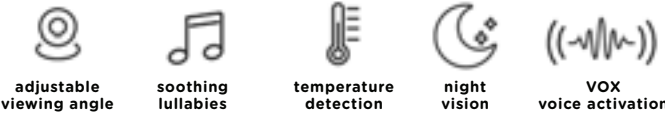

A built-in temperature sensor helps you keep track of the room environment, while the speaker enables convenient two-way communication. REM EYE can also connect to a compatible REM 6.5 monitor via RF, making it a flexible camera that can be used either with the dedicated monitor or independently through the FeelBaby app.

Compatible as an additional camera  
for the REM 6.5 system

**Resolution: 2560 × 1440 px**  
**340° rotation**  
**70° tilt**

# Gaia & Gaia Duo

**Pump freely.  
Move naturally.**

GAIA is a compact, wearable electric breast pump designed for modern motherhood. Its discreet hands-free design fits comfortably inside your bra, giving you the freedom to pump at home, at work or on the go while keeping your hands free for everyday moments.

The ergonomic 3D shape adapts naturally to the breast, while the soft silicone flange provides a comfortable and secure fit. Multiple reduction inserts are included, allowing each mother to choose the most suitable size for efficient and gentle pumping.

GAIA offers 3 pumping modes and 9 intensity levels. Choose between stimulation, expression or combined mode and adjust the suction strength according to your comfort and needs.

The quiet operation of  $\leq 55$  dB makes pumping discreet, even at night or around others. A built-in rechargeable battery provides up to 2.5 hours of operation, while convenient USB-C charging makes GAIA easy to use wherever the day takes you.

A practical storage case keeps the pump and accessories protected and organised when travelling. Available only for Gaia, not Gaia Duo.

 **STIMULATION MODE**

A faster, gentler rhythm designed to help initiate milk flow.

 **EXPRESSION MODE**

A slower and deeper suction pattern for effective milk extraction.

 **COMBINED MODE**

Automatically alternates between stimulation and expression for convenient everyday pumping.

**325035**  
Gaia

**327035**  
Gaia Duo

# Libra 2in1

## One scale for the whole family

A practical multifunctional 2in1 scale that you can use from the very first days of your baby's life to everyday monitoring of adults.

Thanks to the removable plastic baby tray, it is ideal for weighing infants, while the sturdy base made of 6 mm tempered glass serves as a classic personal scale for the whole family.

The large backlit LCD display ensures excellent readability in all lighting conditions, and touch controls make operation simple and intuitive. The scale offers precise measurement in kg / lb / oz units and a practical HOLD function that displays a stable value without the need for repeated weighing.

Minimalist design, maximum load capacity of up to 180 kg, and high-quality construction make the LIBRA scale a reliable helper that naturally fits into any household.

**Weighing modes:**  
Infant weighing mode (100 g - 20 kg)  
Adult weighing mode (5 kg - 180 kg)

**Maximum load:** 180 kg  
**Division:** 5 g  
**Power supply:** 3× AAA batteries (included)

# Balance

## Confidence with every weigh-in

A digital baby scale designed for safe and comfortable weighing from the very first days.

The clear backlit LCD display ensures excellent readability in any lighting conditions, and the controls are simple and intuitive.

The automatic and manual HOLD function captures the weight even with your baby's natural movement and shows a stable reading without the need for repeated weighing.

The ergonomically shaped weighing surface keeps your baby safe and comfortable during weighing. Its gentle curve supports the correct position and gives parents confidence in everyday use.

**Maximum load:** 20 kg  
**Division:** 5 g  
**Power supply:** 2× AAA batteries (included)

# Nexa

## Fast and touch-free temperature control

Nexa is a non-contact infrared thermometer for fast, hygienic forehead temperature checks. It is suitable from birth (0m+). It helps parents measure temperature in seconds without waking a sleeping baby or causing discomfort.

The contactless technology delivers an accurate reading in under 2 seconds. The large, crystal-clear display is easy to read even at night, and the color-coded fever alert helps you interpret the result at a glance.

Choose spot measurement for a quick check or scanning measurement when your child is moving. Simple one-button operation and memory of the last reading make Nexa stress-free for everyday use.

# Nozi

## Clear little noses, easier breathing

Nozi is a practical electric nasal aspirator designed to help gently remove mucus from your baby's nose and make everyday care easier. With 9 suction levels, the intensity can be adjusted to suit your baby's needs, from gentle to stronger suction.

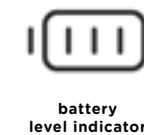

The soft silicone suction nozzle is designed for comfortable use, while the removable suction container makes cleaning after use simple and convenient.

For a calmer experience, Nozi also features a built-in night light with 3 brightness levels and a music function with 3 volume levels, helping to distract and soothe your little one during nasal cleaning. The clear display shows the selected suction level and battery status.

The rechargeable design with USB-C charging makes Nozi a practical helper to keep close at home or take with you when travelling.

# Feeding time

Enjoy the taste

# Tasty

Exceptional comfort  
for daily feeding

The highchair is thoughtfully designed with both comfort and functionality in mind, making mealtimes a breeze. It can be easily adjusted to meet the needs of your little one, offering 7 height settings, a reclining backrest adjustable up to 175 degrees (from sitting to lying position), and an adjustable footrest for added support.

The seat upholstery is made from durable, smooth PU material that is exceptionally easy to clean. A large, adjustable tray, which can be detached from the highchair, provides the ideal space for eating, playing, or learning. For safety, the 5-point harness prevents any accidental falls.

Highly mobile thanks to its built in wheels, the highchair is also incredibly compact, folding down to just 20 cm in width.

# Take&Match

A fresh splash  
of colour

Following the success of our original collection, we are introducing four delightful new shades: Sweet Pea, Frosted Sky, Bitter Cocoa, and Velvet Latte.

These colors harmonize beautifully with our existing palette, giving parents even more possibilities to create their perfect table setting.

Made of 100% food-grade silicone, our dishes remain practical, lightweight, BPA-free, temperature-resistant, and suitable for microwave use. The pieces are still easy to clean and dishwasher safe, available individually or as complete sets.

Whether you mix and match or keep to one tone, the expanded color range makes mealtimes even more inviting and stylish.

Age: 6 m+

# Ceramic Bowl

Little meals,  
more independence

A healthy ceramic bowl designed for your little one's everyday meals. The ceramic inner bowl is combined with a soft silicone outer layer, making it comfortable to handle while giving it a playful, modern look.

The silicone suction base helps keep the bowl securely in place on smooth surfaces, reducing unwanted movement, spills and little accidents during mealtimes. Wide silicone side grips make the bowl easier to hold and handle.

The ceramic surface is smooth and easy to clean, making the bowl a practical companion from first tastes to more independent eating.

**Suction base for better stability.**

# Ceramic Divided Plate

Independent eating  
made easier

A practical ceramic plate designed to support little ones as they learn to eat independently. The plate is divided into three separate sections, making it easy to serve different foods, flavours and textures without mixing them together.

The ceramic inner plate provides a smooth and pleasant surface for everyday meals, while the soft silicone cover around the plate helps protect the plate and makes it comfortable to handle. The simple rounded design is suitable for everyday family dining and fits naturally into a modern home.

The three compartments are ideal for serving a main meal together with vegetables, fruit or small snacks and encourage varied, balanced portions.

# Amigos

Best water play buddies!

Soft silicone toys are made from food-grade silicone without BPA.

Each toy has special holes through which water can be poured. This provides great fun while bathing, as well as effective squeezing exercise for little hands. The toys can be disassembled into two parts (top and bottom), making them easy to wash and dry.

# Turbo 5in1

More than  
just a bike

Multifunctional tricycle designed  
for children aged 1.5 to 5 years,  
or up to 25 kilograms.

A transport vehicle not only for  
movement and learning balance,  
but also a companion for the  
growing child through various  
developmental stages.

The thoughtful transformations  
of the bicycle adapt to your baby's  
needs as they develop motor skills.

The different modes change very  
easily and without the use of any  
tools.

# Turbo Limited 5in1

**Adventure on wheels  
in a limited edition.**

Turbo is one of our all-time favourites and now it comes in brand new limited editions inspired by imagination, nature and playful adventures. For little riders who love discovering the world in their own way, we've created a special printed collection that brings stories to life with every ride.

The **Dino Park** design is playful and adventurous, inspired by the world of dinosaurs and made for little explorers with big imaginations.

**Pink Meadow** comes with a soft floral pattern for a cheerful and gentle riding experience.

With **Llama Vibes**, a cheerful animal theme and positive energy brighten every ride with playful details and a stylish look.

And **Rosy Wilderness** brings a gentle, nature-inspired motif with soft colours for a calm, magical atmosphere on every journey.

Same smart 5-in-1 functionality,  
brand new stories to ride.

# Turbo Plus 5in1

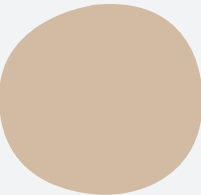

From tricycle to bike,  
comfort at every stage.

A multifunctional tricycle designed for children from 1.5 to 5 years of age that grows together with your child and adapts to their skills at every stage of development.

Turbo Plus starts as a stable tricycle with the option of parental assistance and gradually transforms into a balance bike and later into a full bike with pedals. The ergonomically shaped seat with a high headrest provides maximum support, safety and comfort during the ride.

Compared to the Turbo model, the Plus version is equipped with a practical canopy that protects the child from the sun and increases riding comfort during warmer days.

# Drift 4in1

Smart by design.  
Smooth in motion.

Drift is a smart 4-in-1 tricycle designed to adapt to your child's development and riding confidence.

Thanks to its multifunctional design, Drift easily transforms between four practical modes: tricycle push mode, classic tricycle mode, balance bike mode and bike mode.

This allows children to gradually build coordination, balance and pedaling skills at their own pace. The special construction enables the pedals to slide and adjust according to the selected mode, supporting a smooth transition from assisted riding to independent movement.

An ergonomic seat with backrest provides comfort and stability, while the parent push bar offers extra control during the first stages. The sturdy frame and durable wheels ensure safe and stable everyday use. Minimalist design, soft color details and clean lines make Drift both stylish and functional — perfect for daily adventures.

# Bingo 3in1

EN176

Three functions.  
Many options. One choice.  
Bingo!

Meet Bingo – a smart 3-in-1 ride-on that grows together with your child. From first steps to first pedaling.

Bingo starts as a stable tricycle, perfect for little beginners learning balance and confidence. As skills grow, it easily converts into a balance bike and later into a first bike with pedals.

All transformations are simple and tool-free, ready in just a few steps.

Lightweight design and rotating handlebars make Bingo easy to control, while quiet foam wheels are suitable for indoor and outdoor use.

Modern, gentle and timeless design combined with high-quality materials ensure safe and joyful riding.

# Grace 2in1

EN 1130:2019

## Compact crib for modern living

Grace is an excellent choice for parents who want a compact, comfortable, and safe solution.

Its lightweight construction, adjustable features, and modern design make it an excellent choice for families who need flexibility.

It's ideal for smaller apartments, bedrooms, or areas where space is limited.

During the first months of life, it's important to have the baby nearby.

Grace can be used as a standalone crib or you can attach it to a parent's bed as a bedside crib. The setup is intuitive and fast, so you won't waste time on complicated assembly.

**Age:** 0m+ till 5 m (max. 9 kg)  
**Weight:** 7,9 kg

# Nela

EN 1130:2019

**Natural simplicity  
and a safe place for sleep**

Nela is a timeless wooden cot made from high-quality beech wood, combining durability, stability and a clean, modern design. Its simple lines and white finish make it an elegant addition to any nursery.

Designed to grow with your little one, Nela features an adjustable mattress base with 3 height positions. The highest position makes caring for a newborn easier, while the lower settings provide greater safety as your baby learns to sit and stand.

The solid construction and fixed side rails ensure excellent stability for everyday use. Child-safe materials and finishes make Nela a reliable choice from the very first days.

For extended use, the cot can be complemented with the PETITE&MARS Side, available separately.

**Nela:**

# Baby Mattress

## Comfortable support for healthy growth.

Petite&Mars mattresses are designed to provide babies and toddlers with the comfort, support and breathability they need for restful sleep and healthy development. Carefully selected materials create a safe and comfortable sleeping environment from the very first days.

Our mattresses combine firm infant sides with comfortable toddler sides, adapting to your child's changing needs. The firmer side provides stable support for babies, while the softer, highly elastic side offers greater comfort as your child grows and becomes more active.

Breathable foam structures and ventilation channels improve air circulation and help reduce moisture build-up. Depending on the model, HR foam, premium foams, silver fibres and bamboo fibres provide additional comfort, durability and hygienic benefits.

Removable washable covers make everyday care easier, while double-sided designs let parents choose the most suitable sleeping surface as their child grows.

# Royal3

## Ready for the royal ride

The new Royal3 stroller is available with black and silver frames. Its popular rich equipment and sophisticated details have been retained, ensuring the same high-quality experience.

The premium fabric of the cover, the canopy with a patterned inner side, the tastefully quilted footrest, and the double-sided liner all create a striking impression at first glance. In addition to the standard colors, a limited collection of canopies – Limited 100 – with unique designs is also available.

Compared to the previous Royal2 model, the Royal3 features a panoramic backrest vent that allows air to flow into the stroller from three sides, creating Panoramic Airflow System. Additionally, it includes an extended liner, and the seat belts fasten with a magnetic buckle.

Please note that the Royal3 chassis is compatible with Royal2 and Royal3 canopies and not with those from earlier models Royal.

# Foamy

## Comfort first

Colored liners with unique design will brighten up stroller, provide baby with comfort and protect covers from dirt.

The liner is made of soft visco-elastic foam and offers several benefits, such as resistance to dust mites and bacteria, which do not settle or multiply in it.

It mitigates the impact of driving on uneven terrain and promotes correct body posture.

The liner is compatible with almost every stroller, and thanks to several holes, it can be easily adjusted.

12 soothing sounds,  
soft night light  
and a Bluetooth speaker  
in one compact device. Two universal  
attachment systems makes it easy to  
secure to a stroller, baby cot or infant  
car seat. Its ultra-quiet operation  
helps create a calm and relaxing  
environment without disturbing your  
little one.

Compact and rechargeable, Rockaboo  
is made for use both at home and  
on the go. The 3000 mAh battery  
provides up to 24 hours of use,  
depending on the selected functions.

## Reliable protection on the go

Practical transport bag designed to protect your stroller from dirt, scratches and damage during travel or storage.

Strong and thicker textile material keeps the stroller safely protected even with frequent use.

The full-length zipper allows quick and easy insertion and removal without unnecessary handling.

Thanks to the practical handle and adjustable straps, the bag can be comfortably carried by hand or worn on the back.

Minimalist design with the Petite&Mars logo makes Carrie a reliable companion for travel and everyday use.

## Protection for cold and windy weather

The universal Footmuff is ideal for cooler, windy or rainy days. It reliably protects the child from adverse weather conditions and ensures comfort on every walk.

Made from high-quality water-repellent fabric, it helps protect against moisture and cold. The elastic top edge helps keep wind out and warmth in. The material is easy to clean and machine washable at 30 °C.

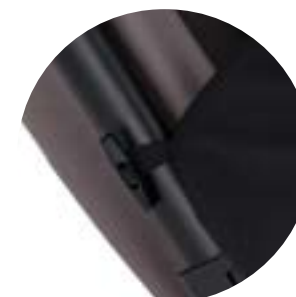

Two practical zippers make handling easy – allowing quick ventilation or comfortable removal of the child without fully unfastening.

Fits most sport strollers on the market.

**Teddy-soft comfort  
for every weather.**

A warm footmuff with a soft Teddy fleece lining, suitable for a carrycot, stroller, car seat and sled.

The center zipper allows easy access to your child and helps regulate the temperature. The extendable bottom section makes it possible to adjust the length of the footmuff as your child grows.

The drawstring hood provides extra protection against wind and cold. The windproof outer material and 3000 mm water column ensure reliable protection during winter walks.

Universal harness openings allow easy installation in most strollers and car seats.

## Warmth and comfort for your hands

Elegant stroller handlebar gloves that keep your hands warm during winter walks. The soft fleece lining provides excellent thermal comfort, while the high-quality faux fur adds an elegant look and even greater comfort.

A magnetic connection between the thumb section and the main part of the glove allows a better grip around the stroller handlebar and more comfortable handling while walking.

After your walk, both gloves can be easily connected using the integrated buckle, helping to keep them together and preventing loss.

# Arctic 4in1

Cover yourself  
with warm fur

Excellent quality, a lot of features, and a nice fur, which serves as an effective barrier against cold and wind. This is the footmuff Arctic.

The extendable footmuff with a central zipper allows better access to the baby. It is waterproof, windproof, and thanks to BIONIC-FINISH® ECO technology, does not contains any dangerous substances.

Universal holes on the back of the footmuff allow it to be attached to a stroller or car seat of any brand.

By unzipping the bottom part the footmuff will become shorter and will fit into a carrycot or a car seat.

The drawstrings at the top create a hood that perfectly protects baby from wind and cold.

The fur is removable. The non-slip surface on the back (ABS) prevents the baby from slipping in the stroller.

Glamour gloves  
for the trips

Stylish winter companion for walks will make even the coldest days more pleasant.

Thanks to two separate parts, they can be easily attached to any stroller.

In addition, the water-resistant finish effectively protects against snow and light rain, while the warm fur provides protection from freezing winds. They are lined with warm fleece and fastened with 4 studs.

Universal size, also suitable for dad's hands. Decorated with removable fur to protect against wind.

## Comfortable like in mommy's tummy

An amazingly warm and soft footmuff with removable fur trim. Suitable for a carrycot, stroller, or as a separate liner, thanks to the removable top section. It is windproof and impregnated.

The special BIONIC-FINISH® ECO treatment is a patented ecological water-repellent technology. It contains no harmful fluorocarbons and offers very high water resistance.

The fur trim is attached with snap buttons and can be easily removed. The footmuff can be washed at 30 °C. The openings on the back are designed to fit any type of stroller. Universal harness openings are also suitable for non-detachable 5-point safety harnesses.

**Always comfortable  
and warm**

A warm extendable footmuff with three functions – suitable for a carrycot, stroller, and car seat.

The central zipper ensures quick and easy access to the child. The footmuff is extra long – up to 110 cm.

By removing the bottom section, the footmuff becomes shorter. Using the drawstrings around the head area creates a hood that perfectly protects the child from wind and cold. It is water-resistant and protects the child from wind.

Universal openings on the back allow attachment to strollers or car seats of any brand.
